Non-Hazardous Statement

Dear valued Customer

We hereby confirm that the product groups listed in Table 1 are classified as non-hazardous. The products included in these product groups are listed in Table 2.

Based on their composition and the concentrations of their components, these products are not classified as hazardous to health or the environment under Regulation (EC) No. 1272/2008 (CLP) or the Globally Harmonized System (GHS) as implemented by OSHA Hazard Communication Standard (29 CFR 1910.1200). They do not contain hazardous substances above applicable regulatory thresholds, including SVHC.

In accordance with Article 31 of Regulation (EC) No. 1907/2006 (REACH), as amended by Commission Regulation (EU) 2020/878, and OSHA requirements, a Safety Data Sheet (SDS) is not required for these products.

Therefore, no SDS has been prepared or is available.

Applicable only when artificial DNA-free plasma is included: Starting materials of the artificial DNA-free plasma were tested and found non-reactive for HBsAg and negative for anti-HIV 1 and 2, anti-HCV and HCV RNA.

With kind regards

Kristin Melchert, Head of production

Table 1 List of applicable product groups

Product group	composition
DNA in buffer	DNA products derived from human cells, supplied in Tris-EDTA-buffer (10 mM Tris, 1 mM EDTA, pH 8.0)
DNA in plasma	DNA products derived from human cells, supplied in artificial DNA-free plasma (human serum proteins in common plasma concentrations, electrolytes, EDTA)
FFPE	DNA and/or RNA products, supplied in Formalin Fixed Paraffin Embedded tissue format
Plasma products	DNA-free plasma products (human serum proteins in common plasma concentrations (1-fold or 2-fold concentrated, electrolytes, EDTA)

Table 2 List of applicable SensID products

Article Number	Product Name and Set components
